NIKITA NAIK

Mansfield, UK | +44 7887 166996 | nikitat.analytics@gmail.com | LinkedIn | github

PROFESSIONAL SUMMARY

Data & Insights Analyst with 1.8+ years' experience turning complex, multi-source datasets into actionable business intelligence using SQL, Python and Power BI. Delivered 36 state, 2 national and 10+ client dashboards supporting programmes reaching 1M+ individuals, alongside end-to-end data migration, data quality assurance and automated reporting workflows. Skilled in stakeholder management, requirements gathering, KPI reporting, data governance and dashboard development, backed by a hands-on portfolio spanning SQL, Python, Power BI and Tableau analytics projects. Seeking a Data Analyst / BI Analyst role in the UK.

CORE SKILLS

SQL & Databases: SQL, MySQL, PostgreSQL, Joins, CTEs, Subqueries, Window Functions (RANK, DENSE_RANK), CASE Statements, Aggregations, DDL, Query Optimisation

BI & Visualisation: Power BI, DAX, Power Query, Data Modelling, Tableau, Metabase, Dashboard Development, KPI Reporting, Data Visualisation

Python & Analysis: Python, Pandas, NumPy, Matplotlib, Seaborn, Feature Engineering, EDA, Statistical Analysis

Data Operations: Data Cleaning, Data Transformation, ETL / Data Migration, Data Quality & Governance, Database Maintenance, Reporting Automation

Excel: Advanced Excel, PivotTables, XLOOKUP, INDEX/MATCH, SUMIFS/COUNTIFS, Dashboarding

Other: Stakeholder Management, Requirements Gathering, Business Intelligence, Data-Driven Decision Making, Analytical Storytelling

PROFESSIONAL EXPERIENCE

Data & Insights Analyst — E-Health Research Center (EHRC), IIIT Bengaluru | *Bangalore, India | Mar 2023 – Oct 2024*

- Developed and maintained 36 state, 2 national and 10+ client dashboards in Power BI and Metabase, supporting programmes reaching 1M+ individuals
- Built real-time dashboards tracking agent activity, shift-wise volumes and regional segments, contributing to a 60% increase in call volume and a 30% reduction in emergency calls
- Led V1 to V2 to V3 backend data migration, validating new patient fields and data sources while ensuring data integrity and continuity
- Maintained 5 structured databases and implemented 15+ DDL changes, improving data accuracy, consistency and database performance
- Automated recurring reporting workflows using Python and Excel, reducing manual reporting effort by approximately 30%
- Optimised SQL/PostgreSQL queries, reducing database maintenance time by approximately 20%
- Performed data validation and quality checks across multiple structured data sources to support reliable, stakeholder-focused reporting

Data Science & Technology Educator — Seva Sadan College | *Burhanpur, India | Jul 2017 – Aug 2021*

- Taught 200+ students Data Science and Software Engineering, connecting theoretical concepts with practical, industry-aligned applications; mentored students in programming, data analysis and software development

Academic Educator — MAIPS College | *Burhanpur, India | Jul 2016 – Jun 2017*

- Trained 150+ students in Data Structures and Operating Systems through interactive, activity-based teaching

KEY PROJECTS (PORTFOLIO)

English Football Club Performance Analytics — Capstone | *Python, MySQL, Power BI*

- Analysed 8,882 English football matches (2020–2025) across 100 clubs and 4 divisions to evaluate team performance, scoring patterns and home advantage
- Built an end-to-end pipeline: Python/Pandas for data cleaning, feature engineering and EDA; MySQL (CTEs, CASE, UNION/UNION ALL, window functions RANK/DENSE_RANK) for structured analysis; interactive Power BI dashboard covering win rates, goal difference and team rankings for stakeholder reporting

Retail & E-commerce Analytics | *Power BI, DAX, Power Query, Data Modelling*

- Built a structured Power BI data model with DAX measures and KPI-driven dashboards covering sales performance, customer behaviour, product performance and regional trends to support commercial decision-making

London Takeaway Food Orders — Sales & Product Analysis | *MySQL, Advanced SQL*

- Used joins, CTEs, subqueries, CASE statements and window functions to analyse revenue, basket size, peak ordering periods, product demand and pricing patterns for restaurant and operations stakeholders

Healthcare Provider & Medicare Performance Analytics | *Power BI, DAX, Power Query, Data Modelling*

- Built an interactive Power BI report comparing healthcare provider performance, services, costs, payments and utilisation across providers and regions, applying the same dashboard-development skillset used in EHRC's healthcare programme reporting

Auto Insurance Claims & Risk Analysis | *Tableau, Calculated Fields*

- Analysed claim value, severity, fraud indicators and accident patterns; built Tableau calculated fields and KPI-driven visualisations (claim volume, average claim value, fraud %, vehicle risk) to support Claims and Risk Managers

Additional Projects: Hotel Booking & Cancellation Analysis (Tableau); UK House Price Analysis (Advanced Excel); UK Public Transport / NaPTAN Analysis (Excel); Olympic Athlete & Delegation Analytics (MySQL); Bank Marketing Campaign EDA (Python); Top 10,000 IMDb Movies EDA (Python)

EDUCATION

Data Analyst Certification — *UK* | *Jan 2026 – Present*
Master of Computer Applications (MCA) | *Jul 2013 – Aug 2015*
Bachelor of Computer Applications (BCA) | *Jul 2010 – Jun 2013*

CERTIFICATIONS

Data Analyst Certification — 2026
